

2nd International Workshop on Biophotonics and Optical Angular Momentum BIOAM-2018

Ecole polytechnique, Palaiseau, France
25 – 26 October 2018

General Scope

Forthcoming workshop is aiming to provide a forum for the researchers from both academia and industry working in various domains related to optical angular momentum (OAM), including fundamental aspects, polarimetric instrumentation and applications with special emphasis on biophotonics.

Workshop Topics

- Topological states and scattering
- Chirality and OAM
- Propagation of OAM in complex media
- Generalized Polarimetric - OAM Instrumentation
- Extended Mueller algebra
- Super-resolution imaging
- Biomedical photonics
